

# Client Testimonials

## Great service and market knowledge

After my Mom moved to an assisted living center, my brother and I had the task of selling her remaining belongings and town house. We both live out of state and there was a lot to do. Eric knew all the right contacts and made the job look easy. He also provided valuable insight into the market to sell the town house within 2 weeks of the listing and for a great price. Eric communicated well to keep us informed during the entire process. He also helped to arrange the estate sale and went above and beyond my expectations for a real estate agent. I would highly recommend Eric Timmons if you are looking for a help selling your home.

-Dave
