

Client Testimonials

A better agent than Eric Timmons? Doubtful, because this agent is a real estate treasure!

Eric assisted me with the sale of my home. I discovered him through recent home sales in my neighborhood and took a shot in the dark; I'm glad I did! I found him to be kind, knowledgeable, professional, intelligent, diligent, and well informed. He expertly and patiently answered my frequent questions and helped me come up with a reasonable asking price.

Eric was extremely communicative throughout the entire process and honest regarding his suggestions of home improvements that would/wouldn't add value to the sale of my home. His help with obtaining multiple quotes, facilitating/coordinating with contractors was a godsend as it provided much needed relief during a difficult period of life.

Eric went above and beyond and his attention to detail is unmatched. He carefully monitored the market in my area/neighborhood and was proactive when he felt things were moving too slowly.

Although there were minor setbacks, out of Eric's control of course, my house sold at a price everyone was happy with and the closing process was smooth.

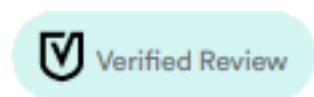

Is there a better agent than Eric Timmons? Doubtful. I can't recommend him enough! Don't take a shot in the dark, take a shot on this review! ;)
